The following report is a summary of services provided by GE Healthcare and contains a holistic view of the **services delivered** aka jobs performed – both scheduled & unscheduled; **IB coverage & uptime** information; upcoming **contractual renewals** as well as our **experts' recommendations** on relevant system health drivers including but not restricted to environmental conditions like PGTH, system connectivity etc.

# Your GE Install Base

This section provides an overview of all your GE Assets by modality & facility (if applicable). It also gives you a high level as well as detail view of your IB's coverage entitlement as well as current connectivity status.

## IB & Entitlement by Modality

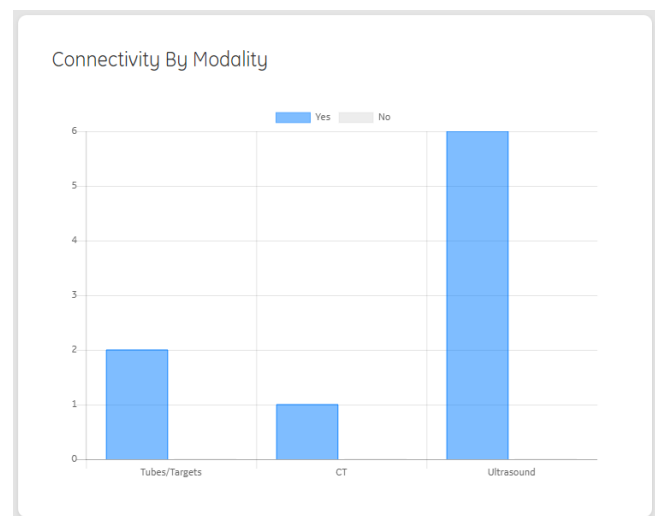

**Tubes/Targets - 2**

**CT - 1**

**Ultrasound-6**

## Connectivity by Modality

## GE Recommendation

*A comprehensive contract package including the 2-ultrasound machine which are not yet under any coverage.*

*Considering that the CT & Vascular systems are connected; we strongly encourage CVSKL to **connect all their other imaging & U/S equipment**. We are happy to assist you in this process.*
